My Experience during the Mothers and Daughters Retreat Review – March 2011

On the 18 March 2011 my mother and I were greeted with a very warm welcome.

As I entered the hotel in Crewe I only saw a few people so I assumed tis would be boring as there was no one present in my own age group. As I entered the room for the introduction to my amazement I saw many young people siting - mothers with their daughters.

I enjoyed the weekend with my mother and new friends. I wish the trip could have been longer. I will definitely go back next year. I learnt one thing; spending time with your mother alone is fun.
